ABDULRAHMAN ALBADI

Computer Engineer

✉ abdulrahman.n.albadi@gmail.com 📞 00966560878022 📍 Saudi Arabia, Riyadh in Abdulrahman Albadi

Computer engineering fresh graduate. I am equipped with the skills to make a meaningful impact. I have positively benefited from my AI projects, I am actively seeking opportunities to apply my knowledge.

💼 WORK EXPERIENCE

Data Analyst, COOP   Jun 2023 – Aug 2023
Alinma Bank, Riyadh

- **Handling Customer Churn Dataset (Data Analyzing \ Modelling):**
  - Cleaning data using **Python libraries**.
  - Analysis and extract valuable insights.
  - Applying **classification ML models** to predict the possibility of customer loss.
- **DevOps Indicators Dashboard (Data Visualization):**
  - Designed and implemented a comprehensive dashboard on **Power BI** to monitor and display key development and testing metrics.
  - Visualizing performance indicators, and numerical data for Saudi Arabia's import-export sectors.
- **Implement ML model (Modelling):**
  - Apply Regression ML models to predict the price of products.
  - Develop a platform using **Flask framework**.

🎓 EDUCATION

Bachelor of Computer Engineering and Networking   Sep 2019 – Jun 2024
Shaqra University

  - GPA 4.96 / 5.00, First Class Honor, ranked (1) out of graduate students in the Faculty.

📑 CERTIFICATIONS

- Generative AI with AWS - Udacity (2024)
- Data Management Masterclass - Udemy (2024)
- AWS Cloud Practitioner - Amazon Academy (2023)
- Machine Learning Algorithms - 365DataScience (2023)
- Business Reports Using Power BI - 365DataScience (2022)
- Data Cleansing - Kaggle (2022)

🏅 Awards

7th IET GCC Robotics Challenge   Nov 2023
Effat University

Earned Third Place in the 7th IET GCC Robotics Challenge Social Robot Competition at University of Effat for Project "Sportify," developed with colleagues

📁 GRADUATION PROJECT

An AI-Enabled Proctoring System design for Academia
  - AI algorithms for monitoring examees
  - Raspberry-Pi 5 deployment

🌐 LANGUAGES

- Arabic   Native
- English   Fluent
